Certifications: Embarking on Full-Stack Web Development: Mastering HTML, CSS, JavaScript, and React.js - Skillsafari 2022.

Live Projects:

KB Tool (Live Project):

website Link:- <https://kb.waseemakram.online>

The KB Tool, developed using HTML, CSS, and JavaScript, serves as a valuable production tool for the company. It allows users to input their ID or customer ID, which is then copied and reset with specific character totals. Additionally, the tool integrates a company search engine, leveraging Zaubas database to provide information about registered companies. It includes five copy buttons for quick access to commonly used phrases or actions, such as "QID-75 Copied!" and "Docs-reupload Copied!" Users can also copy and manage phrases like "not salary," "salary-hold," and "1m p-reset," facilitating seamless data transfer to an Excel sheet.

This tool HTML, CSS, JavaScript, and Bootstrap for programming and design implementation.

BL-Tool(LiveProject);

Website Link:- <https://bl.waseemakram.online>

This live project was developed using HTML, CSS, and JavaScript, serving a vital role for GST purposes. The tool includes input fields for capturing business information like trade name, nature of business, address details, and state selection from a predefined list. It incorporates copy and reset buttons for efficient data handling and management. The formatted information is presented in a user-friendly text area, enabling seamless copying and management of the provided details for GST documentation. Additionally, the footer contains branding information and acknowledgments.

This tool HTML, CSS, JavaScript, and Bootstrap for programming and design implementation.

React-PortfolioLiveProject);

Website Link:- <https://waseemakram.online>

Developed a diverse range of projects including Calculator, Todo List, Weather App, WhatsApp Clone, Employee Database, Flames Game, Quiz App, Notepad, IP Location Finder, and Currency Converter using HTML, CSS, JavaScript, and APIs. Continuously working on more advanced projects to further expand skills.

"Developed a comprehensive web application utilizing HTML, CSS, JavaScript, React, React Icons, React Bootstrap, and Node.js within a React.js framework"

opensecai LiveProject

Website Link :-<https://opensecai.com/>

The OpenSECAI website serves as a comprehensive platform that unites frontend and backend developers by offering a collaborative space to explore, share, and contribute to diverse projects. It serves as an expansive ecosystem encompassing various projects, fostering innovation, and encouraging cross-disciplinary collaboration among developers. Through its inclusive environment and diverse range of projects, OpenSECAI facilitates the exchange of ideas, expertise, and solutions, empowering developers to create impactful applications and further their skills in both frontend and backend development
